

FABRIC LANYARDS

Thank you for reaching out about Fabric Lanyard production for your biz! You'll find all of the information about our Fabric Lanyard production process below!

Will work with you to bring your imagination to life through creating custom artwork, or we can create Fabric Lanyards using artwork you already have.

PROCESS DESIGN FILE

First, we will need a design. These files need to be 100x2cm if you are planning on creating your own, or we need a seamless pattern. Alternatively we can quote for custom artwork. This will depend on the intricacy of your desired design.

CLASP COLOURS

We have a range of high quality clasps to choose from:

Gold, Light Gold, Rose Gold, Bronze, Silver and Black

FAUX LEATHER COLOURS

Below are samples of the faux leather you can choose.

Your logo can be embossed into the faux leather. One time fee: \$70

DIGITAL DRAFT

Once we have the artwork, we will send it off to our design team to draft. You will get to see what your design would look like on a digital lanyard.

From there, we can make as many tweaks or adjustments as you need.

FABRIC SAMPLE

Once you're 100% happy with your design, we will send you a quote and confirm your order with our production department. After a few days, we will receive a sample of your fabric lanyard.

BREAKAWAY CLASP

Black breakaway clasps are included in the final price. These are optional and you can have your fabric lanyards without them.

Other colours available at additional cost.
